

A Hand-Drawn Font

This is a wild typographic experiment where imperfection meets innovation. It blends the handwriting of one unknown artist with that of many renowned ones, and it's packed with playful, unexpected features. From random alternates to emojis, symbols, and a quirky not-quite-monospaced vibe — this isn't just another handwriting font. It's for designers who are bored of safe.

Designed by → Rob Keller

Released → August 2025

Styles → 11 Weights: Super Thin → Super Bold
+ 11 Italics

Some typefaces
are born from
careful study
& formal cal-
ligraphy. This
one came to
life with old
paint markers &
a pile of card-
board scraps,
in a room foggy
with glue fumes.

A Hand-Drawn Font: **The Fam: 1** 3

Eleven weights, 11 italics: Here they all are from Thinnest to Boldest.

Thinnest

Handwriting that creaks like an old barn door.
→ *Scribbling while waiting for the glue to dry*

Thinner

Midwest morning meets Berlin midnight, in ink.
(*Spells cast in 18pt on a cheap laser printer*)

Thin

Handcrafted for chaos, then formatted for fun.
Built from memory, wonder, & a dull #2 pencil.

Lighter

Useful for confessions, to-do lists, or spells
☁️ *Think punk flyer meets gallery press release*

Light

Drawn on the back of a receipt, quite possibly
{*Written under a desk lamp humming in D minor*}

Regular

Fonts like this aren't made—they're discovered
One part line. One part whisper. All character!

Medium

These glyphs say exactly what you're thinking.
[*Letters made from cardboard, grit, & memory.*]

Mediumer

»Smells like chocolate cake and paint thinner«
A little wonky, a little brilliant, very real!

Bold

Your mom believes in ghosts & the Oxford comma
Best used on garage doors, posters, & feelings?

Bolder

Illegible? Rarely. Ignorable? Absolutely never!
Rules ignored, vibes obeyed, message delivered.

Boldest

Jittery from caffeine, but full of conviction!
The mess is the message – and that's by design.

A Hand-Drawn Font: The Fam: 9 4

Eleven weights, 11 italics in a mini paragraph. (And soon there also be 1 big fat variable font for even more nuance - because this font is all about subtle nuance.) ☺

☺ Who am I? Keep a bad queen on my side. Always down to ride, mango margaritas. Silk pajamas, on the beach in the Bahamas ☺☺☆ Shaolin llamas, ☺☺☆ Ramadamas, Nostradamus. What's the science, Lord? Just paying homage, fully conscious. She my coffee, let her rule the world bossy. →☺☺☺→

A Hand-Drawn Font: *The Fam: 9* 5

The italics are sloped and rotated giving a unique texture. It's pretty weird. Most of the emojis always stay upright, some symbols and things also slope, you just gotta try it to see how it works.

Who am I? Keep a bad queen on my side. Always down to ride, mango margaritas. Silk pajamas, on the beach in the Bahamas ☀️🌐🌟 Shaolin llamas, Ramadamas, Nostradamus. What's the science, Lord? Just paying homage, fully conscious. She my coffee, let her rule the world bossy. ➡️👉👑➡️

TIGHTER SPACING - EXPERIMENTAL, DOESN'T WORK EVERYWHERE

A Hand-Drawn Font: **BONUS!** OT Features 7

There are a bunch of other features that aren't so obvious...

SCRIBBLES!

The scribbles have two modes: *simpler lines* (type `) to leave the text somewhat readable, and *crazy zig-zags* (type ˆ) to obfuscate the text more.

Each of these has three modes:

1 mark (` ˆ) crosses out only the previous letter. Like thi~~x~~ and thi~~M~~. **2** marks does two letters: like thi~~is~~ and thi~~VA~~. **3** marks does the full previous word: Like thi~~s~~ & thi~~s~~ even loooooong ~~AAAAAAAA~~

Pro tip: You can color the ` ˆ to make the scribbles stand out from the text. See ~~x~~ like ~~M~~ total~~W~~ly ~~crossed~~ ~~out~~

FRAME YOUR EMOJIS!

The emojis can be framed in simple or decorative frames automatically (via contextual alternates).

Just type [] or {} after an emoji:

WEAR A CROWN!

Most of the emojis like to wear crowns. Add the normal crown after any emoji & the calt feature will swap it with a special crown:

FORGE ROB'S SIGNATURE!

Type RobKeller to artistically sign anything: RobKeller

A Hand-Drawn Font: **The Glyphs** 8
