I'm the king of cellulite.  
Ham on, ham on, ham on

# Puff Just Bold

Puff began as a custom typeface for the Meta Italic Gallery's first exhibition "Capital: Berliner Buchstabentag". Further revised & greatly expanded, this super fat typeface contains a bloated character set with wide language support and tons of features that are normally reserved for >refined< typography.

Ever see an elephant doing ballet? Puff is kinda like that. This one obese typeface is the undisputed heavy weight champion of fonts! Puff's 1,067 glyphs cover most of Europe's languages and there are also Greek and Cyrillic scripts included. And of course all letters have tiny matching small caps!

# Ожирение

Генетическая предрасположенность к ожирению очевидна в семьях лиц, страдающих ожирением. Гены, ответственные за регуляцию массы тела эволюционировали на протяжении всей истории происхождения и развития человеческого общества, но в то же время существенно изменились и факторы внешней среды, определяющие потребление питательных веществ и снизившие привычную физическую активность.

**First place chick is hot, but has an attitude, doesn't date magicians. It's called 'taking advantage.' It's what gets you ahead in life. Now, when you do this without getting punched in the chest, you'll have more fun. I don't criticize you! And if you're worried about criticism, sometimes a diet is the best defense. I'm afraid I just blue myself. That's why you always leave a note! I'm half machine. I'm a monster. We just call it a sausage. I don't understand the question, and I won't respond to it. I hear the jury's still out on science. Really? We'll want to use your yacht, and I don't want this thing smelling like fish. I've opened a door here that I regret. Army had half a day.**

**SSOB - Be a Square**

A 10x10 grid of black squares, representing a sparse matrix where most entries are zero.

8894 - Yann... Pis!

The image consists of a grid of black dots arranged in approximately 10 rows and 20 columns. The dots are mostly uniform in size and are set against a white background. There are several irregular, larger clusters of dots that form holes or gaps in the grid. One such cluster is located in the upper right quadrant, another in the lower left, and a third near the bottom center. The overall effect is reminiscent of a halftone dot pattern or a stylized version of a wireframe mesh.
